

MQP Meeting minutes

| | |
|----------------------|---------------------------------|
| Date and Time | Monday 31 March 2013 at 2:00 pm |
| Venue | Craig's Office |
| Participants | Curtis, Craig, Krishna, Dan |

| Item | Notes and Discussion |
|-----------------|--|
| Since Last Week | <ul style="list-style-type: none">• Spent a long time tweaking the proxy to perfection, until it preforms aggregation as expected.• Tested on a small jpeg to verify. Need to use larger file size in the future |
| Evaluation plan | <ul style="list-style-type: none">• Use tc to throttle bandwidth between NICs on the VMs (in order to emulate a slow connection to the server, but a fast one in between routers)• Can perform infrastructure tests on any hardware that runs linux. Could borrow laptops from the ATC, or buy a few Pis, or resurrect some old boxes from the basement.• Need cheap wifi dongles (Craig has a few). |
| Next Week | <ul style="list-style-type: none">• Get back to writing.• Run in depth evaluation on VMs, collect statistics. |
