

MQP Meeting minutes

Date and Time	Monday 24 March 2014 at 2:00 pm
Venue	Craig's Office
Participants	Craig, Krishna, Dan

Item	Notes and Discussion
Last Weeks Milestones	<ul style="list-style-type: none">• Work on packaging code for working tests. Minimizing configuration overhead• Enriched Background section, begun finalizing first few sections of the report.• Paper quality is less of a worry now (especially compared to past MQPs)
Evaluation Plan (The Biggest Priority)	<ul style="list-style-type: none">• NS-3 is a risky time sink for evaluation, best not to use it.• Test on Farmer Craig's VM Ranch first, then port to real linux boxes.• Net-m, TC to add artificial delays in order to emulate an actually network between on VMs.• Look into using BuisyBox (linux distro for embeded systems) on the VMs to mimick a router environment.• Develop grocery list of infrastructure required to do real world sim.
Passing Peer Review	<ul style="list-style-type: none">• Critical: Performance gains, degree of novelty, deployability.• Why is this work important?• What do we offer over similar (very much so) related works?
Misc	<ul style="list-style-type: none">• How To: Project Presentation. (April 24th)• Visually describe project and key results.
